EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Wei Te Chung on 09/16/2004.

The application has been amended as follows:

Claims 2-4 have been cancelled.

Claim 1, line 12 after "section" insert from a new line -- wherein the locking section is movable with the main section to deflect toward the cover and the insulative housing, wherein the insulative housing defines a depression and the cover defines a recess communicating with the depression, the locking section and a front end of the main section are respectively deflected into the depression and the recess when the locking section is mating with the complementary connector, wherein the insulative housing comprises another retention portion, each of the two retention portions having a stopper over the depression and pressing a side edge of the locking section--.

The following is an examiner's statement of reasons for allowance:

No prior art has been found to anticipate or render obvious the presently claimed subject matter. Specifically, Examiner agrees with Applicant (regarding claim 15) that none of the prior art of record discloses the combination of the limitations presented including the protection portion being spatially located above the mating tongue in a vertical direction with an engaging opening therein and the latch portion of the locking member being latchably engaged in the engaging opening.

Art Unit: 2833

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
